

FFXIV Character Search - GitHub Pages Deployment Guide

Development Team

February 11, 2025

1 Introduction

FFXIV Character Search is a browser-based application that allows users to search and view character information from Final Fantasy XIV's Lodestone. This guide focuses on deploying and running the application using GitHub Pages.

2 Project Structure

```
1 ffxiv-character-search/  
2     index.html  
3     styles.css  
4     api.js  
5     app.js  
6     docs/  
7         USER_GUIDE.tex
```

3 Local Development

3.1 Prerequisites

- A modern web browser (Chrome, Firefox, Safari, or Edge)
- Git (for version control)
- A text editor (VS Code, Sublime Text, etc.)

3.2 Running Locally

1. Clone the repository:

```
1 git clone https://github.com/username/ffxiv-character-search.git  
2 cd ffxiv-character-search
```

2. Open index.html in your browser:

- Double-click index.html, or

- Use a local server:

```
1 # Python 3
2 python -m http.server
3
4 # Python 2
5 python -m SimpleHTTPServer
6
```

4 GitHub Pages Deployment

4.1 Initial Setup

1. Create a new GitHub repository:

- Go to github.com
- Click "New repository"
- Name it "ffxiv-character-search"
- Make it public
- Don't initialize with any files

2. Push your code:

```
1 git init
2 git add .
3 git commit -m "Initial commit"
4 git branch -M main
5 git remote add origin https://github.com/username/ffxiv-character-
  search.git
6 git push -u origin main
```

4.2 Enable GitHub Pages

1. Go to your repository's Settings 2. Navigate to Pages section 3. Under "Source":

- Branch: main
- Folder: / (root)

4. Click Save

Your site will be available at:

<https://username.github.io/ffxiv-character-search>

5 Using the Application

5.1 Searching for Characters

1. Enter a character name (required)
2. Optionally specify:
 - World name
 - Data Center name
3. Click Search
4. Results will appear below

5.2 Viewing Character Details

1. Click "View Details" on a character card
2. The details panel will show:
 - Character portrait and info
 - Combat jobs (Tanks, Healers, DPS)
 - Crafting and Gathering jobs

6 Troubleshooting

6.1 Common Issues

- If character search fails:
 - Check your internet connection
 - Verify Lodestone is accessible
 - Try refreshing the page
- If images don't load:
 - Check if Lodestone is blocking requests
 - Try a different browser
- If GitHub Pages isn't working:
 - Ensure repository is public
 - Check if GitHub Pages is enabled
 - Verify the correct branch is selected

7 Browser Support

The application works best in:

- Chrome 80+
- Firefox 75+
- Safari 13+
- Edge 80+

8 Technical Notes

- Uses vanilla JavaScript (no frameworks)
- Directly parses Lodestone HTML
- Uses CSS Grid for responsive layouts
- Implements iframe-based CORS workaround

9 Contributing

1. Fork the repository 2. Create a feature branch 3. Make your changes 4. Submit a pull request

For bugs or feature requests, please open an issue on GitHub.
